

GUIDE TO USNH LIBRARY HOLDINGS

The USNH Library has a wide array of books and DVDs available for members to borrow. The materials are shelved by subject, usually alphabetically by author, and are maintained in three collections:

1. General Collection: Materials on religions, Unitarian Universalism, and variety of other topics
2. Bowles Collection: Materials by or about African Americans, history, issues
3. RE Collection: Materials for Religious Education teachers and children

When possible, related subjects within a collection are grouped together. For example, sacred texts and books concerning separate religions are shelved near one another in the General Collection. In some cases, books on a particular subject may be found in more than one collection; for example, biographies of Martin Luther King can be found in both the Bowles and RE Collections, the latter written for younger readers.

The subject headings used for shelving and the Library Catalog database are shown in the following table.

Note: italicized text indicating general subject areas is not included in the database.
