

Dear USNH community,

This year, the Stewardship Team is focusing on the **Joy of Giving**.

As our campaign gets under way, take a moment to consider how, in giving to USNH, each member both gives and receives. **Just look at what we've built together!** This is a vibrant multigenerational, multi-cultural community offering thought-provoking Sunday services and other gatherings; a music program of rare quality; an outstanding religious education program for all ages; a community where we seek and provide friendship and support; and the infrastructure for wide-ranging and effective social justice work. **At USNH, you can enjoy a shared purpose** with babies, great-grandparents, and everyone in between. **THAT is joyful indeed!**

Last year we shared the great joy of working together, giving together, and taking responsibility for our financial challenges. We met our ambitious campaign goal. This year, building on that success, **we have set an equally bold goal of \$525,000.** We know we can do this! Your generous pledge will sustain current programming and fund new initiatives: increased support for pastoral care and our Director of Lifespan Religious Education, as well as investment in green energy and our building.

Let your generosity bring you joy and take pride in your support of USNH. Please **make your pledge today [at this link](#)**. Your commitment through your annual pledge supports all the ministries of the congregation. (Pledges in any amount are gratefully received, but a pledge waiver is always available if you need it — simply check the box on the pledge form.)

By supporting USNH, we give *and* receive an abundance of joy.

In gratitude,

Rev. Stephen Kendrick

Your Stewardship Team
